

FAST FACT SHEET

We're Experts in Automotive

With over 25 years of experience, we know the automotive industry inside and out. Let us help you find qualified light industrial and skilled employees in your production work, assembly manufacturer, machine operation, technician or repair positions.

While many companies may claim their model is tailored to you, ours actually is. We use an onsite staffing model to build a custom staffing solution for each of our clients. We work exclusively for you, literally on site, in your building or warehouse floor.

No operation quite like yours. So, a cookie cutter staffing solution won't work for you or it will create more problems than it solves. That's why we tailor our proven staffing solutions to be the perfect fit for your market, facility and workforce needs.
